PROFESSIONAL SUMMARY

Full-stack developer with 5+ years of experience building PHP web applications with Laravel, WordPress and Drupal on MySQL and PostgreSQL, from government websites to multi-tenant systems. Comfortable across the LAMP and MERN stack, and used to working closely with UX designers. Currently completing a B.Sc. in Information and Communication Technology (expected June 2027). Available for: full-time / part-time / remote.

SKILLS

- **Backend:** PHP, Laravel, MySQL, PostgreSQL, RESTful APIs, JWT authentication, Filament
- **Frontend:** React, HTML/CSS, Tailwind CSS, Bootstrap
- **CMS:** WordPress, Drupal
- **Infrastructure:** Linux (Ubuntu), Apache, NGINX, Docker, Git, Windows Server
- **Data:** Python, pandas, scikit-learn, XGBoost, SHAP, SQLite
- **Familiar with:** Node.js, Next.js, GitHub Actions, PHPUnit
- **AI-assisted development:** Claude Code, Cursor

EXPERIENCE

Freelance Full-Stack Developer, 2025 - present

Notable project - TripsMyanmar.com - 2025 (6 months)
Team of 3 developers and 1 UX designer

- Owned the order management module end-to-end: order status workflow, admin order dashboard, and payments, invoicing and refunds
- Built with Laravel (PHP) and PostgreSQL, working with the UX designer to turn designs into working screens

Senior Backend Developer, MyanAnt Co. Jun 2024 – Dec 2024

- Designed and built the Laravel (PHP) backend for a domestic service booking application, including JWT authentication
- Built admin dashboards with Filament and React so staff could manage bookings, service providers and customers without developer help
- Integrated payments and third-party APIs, following OWASP practices for input validation and authentication

Mid-level Web Developer, Securelink Co. Jun 2023 – May 2024

- Delivered client projects using Laravel, WordPress and Drupal (PHP/MySQL)
- Built REST APIs connecting client systems with partner platforms, replacing manual data entry between them
- Wrote user documentation and trained client staff on the systems we delivered

Junior Web Developer, Global Technology Service Provider Co. May 2022 – Jun 2023

- Developed and maintained government websites using WordPress and Drupal (PHP/MySQL) and React
- Handled deployments and hosting on Windows Server
- Improved UI/UX of site pages based on client feedback

PROJECTS

Golf Course ERP, RSU Hospitality ERP Hackathon 2025 3rd place of 30+ teams
Laravel (PHP), React, Docker | github.com/faster24/Golf-ERP

- Built an ERP prototype for golf course management covering essentials ERP modules
- Containerised with Docker and included PHPUnit tests

LLM Market Tiers, Data Analysis Project 2026
Python, pandas, scikit-learn, XGBoost, SHAP | llm-price-classifier.vercel.app | github.com/faster24/LLM_Price_Classifier

- Cleaned and merged two Kaggle datasets (price history and benchmarks) for 144 text LLMs, then grouped the market into 7 price/quality tiers using clustering
- Trained Random Forest and XGBoost models to predict a model's tier from metadata alone, and explained the results with SHAP
- Deployed a budget-based model picker and API, backtested on real historical prices

StudyBuddy RAG, AI Study Assistant 2026

FastAPI, LangChain, MongoDB Atlas Vector Search, React, TypeScript | github.com/faster24/StudyBuddyRAG

- Built a RAG pipeline that splits uploaded course documents (PDF, Markdown, text) into chunks, embeds them with a local HuggingFace model, and stores them in MongoDB Atlas Vector Search
- Built an AI tutor chat that answers from the student's own documents through OpenRouter, and generates flashcards and quizzes from the same material
- Added JWT authentication with access/refresh tokens and student/admin roles, plus Redis caching

EDUCATION

B.Sc. in Information and Communication Technology: 2024 – Expected Jun 2027
Rangsit University International College, Thailand

BE.IT (Meiktila Technological University) - not completed: 2016 – 2019
